CHENILLE

---

Faux uni in which the soft chenille, which produces a striated surface, is lit by brief sparkles created by the metallic yarns. The product of research into Renaissance fabrics which combined the richness of velvet with that of the precious gold yarn. The information and inspiration gained from the ancient model, together with an all-contemporary mood and taste, have led to the creation of this fabric where the precious and the contemporary come together. There are numerous colour versions, in which a wide choice of neutrals moves smoothly into warmer and brighter shades.

---

<b>COMPOSITION:</b>	64% cotton 33% spun rayon 3% polyester
<b>WIDTH:</b>	130 cm
